About KALP Cancer Foundation

KALP, a non-profit organization, aims at increasing cancer awareness in common people by offering Cancer Outreach Programs that includes prevention and early detection screening camps, cancer support programs and dissemination of information on cancer. This N.G.O is a concerted effort by a diverse group of Individuals like oncologists, physicians, counselors, social workers and non-medical volunteers including technologists, to bring about a change in the perception of common cancers by identifying and working in defined geographical locations.

Activities

The Organisation focuses on three to four common cancers affecting Indian population, mainly rural.

- ✦ Early detection for head and neck, uterine cervical, breast and colorectal cancer
- ✦ Prevention of cervical cancers through widespread screening programs
- ✦ Anti tobacco awareness programs for urban and rural public
- ✦ Cancer awareness initiatives for school and college students

About Cancer

Cancers along with cardiovascular problems constitute two major non communicable diseases of our country. at any given time there are around 2.4 million cancer cases in India. 48% cancers in men and 20% cancers in women are due to tobacco usage. 30% all women cancers will be gynecological malignancies by 2020. Breast cancer is the most common cancer of women and in men the oral cancer and lung cancers are the commonest, both caused due to tobacco usage. Screening and early detection strategies have contributed significantly to the outcome of cervical and breast cancers

PREVENTION

Prevention aims to reduce the incidence of cancer. Emphasis should be placed on tobacco control and health education relating to sexual and

EARLY DETECTION

Early detection of cancer is the detection of disease at a stage in its natural history where the chance of cure is high. This can be achieved by making people aware of warning signs and symptoms of of common cancers, teaching them about self examination and educating about screening of common cancers like uterine cervix and breast.

Join as a Member

A Member at “Kalp” is expected to play an active role in realising the Organisational goals. Membership is limited and is extended to individuals who meet the criterion set forth by its governing body. Deep understanding and commitment towards preventive health care is the prime requisite to join as a member. Physicians, paramedical staff, technologists, counsellors and others who have public health orientation are welcome.

Join as a Volunteer

One can join as a fulltime or part-time volunteer depending on his/her level of commitment for the cause and time that can be spared. The areas of interest could be field visits, medical functioning, organizational promotion, conduction of cancer screening camps in rural areas and cancer awareness activities in urban areas, cancer education activities in schools and colleges and other related functions.

Be a Sponsor/Donate for the Cause

A penny spent on prevention is worth a pound spent on treatment.

Being a voluntary and non profit organisation, we expect like minded people to donate for the cause we are working on. A donor could be a one time or repeat donor based on his/her convenience and outlook. Alternatively an event could be sponsored. We also solicit the help of corporate bodies who have significant corporate social responsibility as part of their Institutional ethos.

How to Enroll:

- ✓ Contact us through info@kalpcancerfoundation.org
- ✓ Tell us about you and your interests
- ✓ The committee of Kalp examines potential volunteers and qualifies them if the criteria are met.
